

will be placed on the government pier alone, lighting up the harbor with its blinding brilliance.

In the auditorium building, where a number of conventions will be held during the summer and early fall, there will be two thousand 16-candlepower lights, while on the corridors and over the roof thousands of smaller lights will be placed at intervals of six inches.

Fifteen thirty-three-inch searchlights will be located on the main court, and on the summit of a high tower in the center of the court will be placed a light with an eighty-inch projector—one of the largest ever made.

On the Warpath, of course, the lights will be spectacular in the extreme, every color, design and method of arrangement being called upon to make the locality a place of brilliancy. At the head of the principal street in the Warpath an eighty-foot tower will be built, on top of which a searchlight, fitted with a projector thirty inches in diameter, will flash its blinding rays through revolving color screens.

More than one thousand twinkling or "skiddoo" lights, as they are called, will be hung in the vines and shrubbery on both sides of the Warpath, where they will blink at romantic lovers from 7 o'clock in the evening until the grounds are closed at 11.

By actual count it has been ascertained that each twinkling light will open and shut its eye 11,440 times during the four hours they will be in operation.

It is definitely stated by Governor Elyson, on behalf of the exposition, that when the gates are opened Friday, April 26th, they will not be closed, except on Sundays, until November 30th following. This exposition is far and away ahead of any one that has been held in the matter of preparedness.

VICE-ADMIRAL OF HAYTI VERY BLACK

If He Comes, However, He Will Take Precedence Over All Naval Officers.

(Special to The Times-Dispatch.) NORFOLK, VA., April 20.—The officers of Admiral Evans's fleet are mildly excited over a report which has gained credence to the effect that the republic of Hayti is making preparations to send a representative of her navy to the rendezvous in Hampton Roads.

What is the real cause of the flurry and excitement is the fact that should Hayti be represented in the international fleet it will be by a flagship in command of a vice-admiral, who is a stout and fat man as black as a black cat. And, being a vice-admiral, he will be the senior officer present, with the probable exception of the vice-admiral in command of the Japanese cruisers, and as such would receive precedence over all others, according to the strict demands of navy etiquette.

A vice-admiral from Japan is all well and good, but one from the Black Republic is an entirely different proposition and will lead to endless embarrassing situations, which can't very well be avoided.

The newest vessel which the Haytian navy possesses was built in 1876, and it is hardly possible that it could make the trip from Port-au-Prince to Hampton Roads and back again, therefore it is rumored that the government is trying to borrow a vessel from somewhere to send with her ebony-hued vice-admiral to the assemblage of the navies of the powers of the world in Hampton Roads, which makes the affair even more distasteful than otherwise.

PRESIDENT TUCKER DENIES REPORT

British and German Warships Will Remain in Hampton Roads at Least Two Weeks.

(Special to The Times-Dispatch.) NORFOLK, VA., April 20.—The story circulated here to-night that the British and German warships which will visit Jamestown Exposition to represent their respective countries at the opening ceremonies will leave America immediately after the President returns to Washington, is indignantly

The Lazy Season

Spring is here—the lazy season—and with it the imperative necessity for taking Hood's Sarsaparilla.

At first thought it seems singular that when all Nature is reviving and renewing, showing new strength, putting forth bud and blossom, humanity should be so weak and wilted.

Why is it that the lively season with Nature is the lazy season with men and women?

It is because while Nature has been resting all winter, humanity has been working harder than ever, rushing at top speed, eating more and richer food, loading the blood, the kidneys and liver, so that the overworked system is about exhausted.

The peculiar lazy sensation is in the air. About every one has That Tired Feeling. Now is the time when many men and women lose greatly, lose possibly their real chance in life, by letting others pass them.

It is a time of real danger physically, too, because the health-tone is low and you are open to attacks from serious disease.

Just now, above all things, Don't Sit Still. There's risk in this kind of resting. Danger in giving way to That Tired Feeling.

It is far better to keep going and get Hood's Sarsaparilla (in liquid form, or in tablet form called Sarsatabs) to help you. It will put new vitality into your blood, new strength into your muscles, new ambition into your mind. It will sharpen your appetite, aid your digestion, overcome that tired feeling and dispel all danger of this lazy season.

We urge you to take Hood's Sarsaparilla, believing that what it has done for others it will do for you, and doing this you will be added to that great multitude who say

Hood's Sarsaparilla

Is America's Greatest Spring Medicine. Sold by Druggists Everywhere. Be Sure to Get Hood's

Sarsatabs are gaining rapidly in public estimation, and the sales are doubling up. They are so handy—enable you to carry Hood's Sarsaparilla in your vest pocket. Sarsatabs are chocolate tablets prepared from Hood's Sarsaparilla itself by a process of evaporation and distillation, and have identically the same curative properties. Sold by druggists or sent promptly by mail on receipt of price. 100 doses one dollar. O. T. HOOD CO., Lowell, Mass. Guaranteed under Food and Drug Act, June 30, 1906, No. 321.

A Hustling-Out Sale of Fine Trunks.

The travelers' season is approaching, and our mammoth new stock is coming in daily. ALL HOLD-OVERS MUST GO.

A golden opportunity to buy a real swell trunk at the price of an ordinary one.

O. H. Berry & Co.

Men's and Boys' Outfitters, Trunks, Bags, &c.

denied by the officials of the exposition, who brand it as an attempt to injure the great world's fair.

President Harry St. George Tucker said to a Times-Dispatch representative to-night: "The British and German warships will remain in Hampton Roads at least two weeks and perhaps much longer, after which they will cruise along the Atlantic seaboard and return again to Chesapeake Bay. Admiral Neville's squadron is expected to reach Hampton Roads on Thursday and the German squadron a few days later. I cannot give you the exact itinerary of the squadrons, but I can say emphatically that the report that is being circulated is all stuff and nonsense. The Japanese warships will arrive about May 10th and the Italian cruisers shortly thereafter."

"Bobs" Is Expected.

Mr. Tucker added that he had heard from Field Marshal Lord Roberts, the famous "Bobs" of the English army, who hopes to visit the exposition some time during the summer. Admiral Harrington, who has charge of all naval matters connected with the exposition, spoke no less strongly in denial of the story. He said: "I have heard no such story and I have no reason to believe that it is true. If such a movement is contemplated by the British and German squadrons I have not been informed, and no such intimation has reached me."

A cruiser representing the navy of Uruguay anchored yesterday in Hampton Roads, but later proceeded on the bay to Baltimore.

Of the German squadron, but one warship, the Bremen, has reached Chesapeake Bay, and she is now anchored two miles off Newport News, and cannot be reached to-night. A. P.

REGULARS COMING.

Battalion of Infantry Will Reach Exposition To-Day.

(Special to The Times-Dispatch.) NORFOLK, VA., April 20.—The first battalion of the Twenty-first United States Infantry is expected to arrive here to-morrow morning from Madison Barracks, New York, and will at once go into camp at the exposition grounds.

The second squadron of the Twelfth United States Cavalry will arrive from Fort Oglethorpe, Ga., either Monday night of Tuesday morning, also for duty at the exposition.

The reservation of the troops of the regular army at the exposition grounds has been inspected by Brigadier-General Frederick Dent Grant, who is in command of the military division of the exposition. Very satisfactory arrangements have been made for the equipment of the soldiers, and everything is ready for their arrival.

Both the Twenty-third Infantry and Twelfth Cavalry are noted throughout the army for their excellent training and general efficiency, and the officers and men are splendid examples of typical American soldiers. These troops will give frequent exhibition drills at the exposition grounds during the entire period.

The battalion of the Twenty-third Infantry is composed of fifteen officers and 260 enlisted men. The squadron of cavalry men is made up of thirteen officers and 220 enlisted men.

TWO BIG STEAMERS.

Callahan and Woodbury Will Carry Crowds to Exposition.

(Special to The Times-Dispatch.) NORFOLK, VA., April 20.—The steamers John Callahan, under charter by the Chesapeake and Ohio Railway, and Woodbury, chartered by the Old Dominion Steamship Company, arrived here to-day from Washington, D. C., and were at once docked at the shipyard for overhauling. The vessels will be in service around Hampton Roads during the Jamestown Exposition. The Callahan will ply directly between this city and the exposition grounds, making half a dozen or more trips a day. She has a capacity of about 2,500 passengers a trip.

GREAT CROWDS.

Indications Are That Attendance at Exposition Will Be Enormous.

(Special to The Times-Dispatch.) NORFOLK, VA., April 20.—Attendance at the Jamestown Exposition, according to reports received here from all over the country, will be enormous. Aside from special occasions and State days, the regular attendance will be phenomenally

large, and every section of the country will be represented.

Advises received from Guthrie, Okla., state that much interest is manifested there in the Tercentennial, and crowds from there are expected to come in large numbers. Word comes from San Antonio that there will be as many Texans at Jamestown as residents of any other State in the Union.

The Pacific coast will send numerous visitors, and the Middle West is preparing to come to a man almost, according to statements made by residents of that section recently in Norfolk.

BLIND CHILDREN'S WORK AT THE EXPOSITION

(Special to The Times-Dispatch.) BOSTON, MASS., April 20.—Children of the Kindergarten for the Blind, Jamaica Plains, have just completed a very fine exhibition of handwork for the Jamestown Exposition. The exhibit includes specimens of sewing, weaving, paper-folding, knitting and clay modeling.

Miss Beatrice Newby Philpney, of Lynn, Mass., has just been appointed official harpist at the Jamestown Exposition. She is a pupil of Professor Schaeffer, of the Boston Symphony orchestra. Her engagement at Jamestown begins May 12th.

King Edward's Cup Arrives.

NORFOLK, VA., April 20.—The steamer Philadelphia, which arrived to-night, brought King Edward's cup, presented to the Jamestown Exposition authorities for the race between twenty-foot sailing boats.

POPULAR YOUNG LADY TO CELEBRATE BIRTHDAY

MISS GERTRUDE LEE PERRY.

Miss Gertrude Lee Perry will celebrate her eighteenth birthday to-morrow night at her home in the West End. Miss Perry is a very attractive young lady, and is popular in a large circle of friends.

Imitation Is Flattery.

"Yes, ma'am," the convict was saying. "I'm here just for tryin' to flatter a rich man."

"The idea!" exclaimed the prison visitor. "Yes, ma'am, I did try to imitate his signature on a check."

THE WEATHER

Forecast for Sunday and Monday: Virginia—Fair, and warmer Sunday and Monday; light to fresh west winds. North Carolina—Partly cloudy Sunday and Monday; warmer; light to fresh west winds.

CONDITIONS YESTERDAY: Richmond—Weather was clear, and warmer. 3 A. M., 44; 6 A. M., 51; 9 A. M., 58; 12 M., 62; 3 P. M., 65; 6 P. M., 68; 9 P. M., 65; 12 M., 62; Average, 58. VIRGINIA HAS FINEST BUILDING

Old State Will Be Able to Receive Visitors in Truly Hospitable Fashion.

THE "HOME-COMING WEEK"

This Is Fixed for June 11 to 15th, Inclusive, and a Great Reunion Will Be Held.

STEAMER TRUNKS.

(Special Correspondence of The Times-Dispatch.) JAMESTOWN EXPOSITION, April 20.—Virginia, as the Mother of States, and the hostess of the Tercentennial, has the most imposing of all State structures, presenting a beautiful type of colonial architecture in all its conventional dignity.

The Virginia Building has a front porch of 110 feet, including the side porch. It is of brick, with stone and marble ornamentation. The front elevation presents the harmonious effects of Ionic elegance, combined with Doric simplicity. Laty Corinthian columns, surmounted with Acanthus leaf capitals, support the pedimental projection above an imposing entrance.

The Virginia Building, although designed for reception and entertaining, has sixteen bedrooms for the accommodation of Governor and Mrs. Swanson and their guests.

In keeping with its style of architecture and the event the Jamestown Tercentennial commemorates, the Virginia State building is furnished throughout with antique colonial furniture, worth, according to collectors, a small fortune.

Part of this furniture was bought in Norfolk at antique shops by the Building Committee of the Virginia Commission, assisted by Mrs. Swanson, wife of Virginia's chief executive, and the hostess of Virginia at Jamestown, and much was loaned by the people of the State.

Sufficient antique colonial furniture was found to furnish the entire lower floor of the Virginia Building and part of the upper floor. Some of the furniture was purchased at prices very low for its purchase by the commission.

Old colonial chairs, benches and tables were found to equip the large reception rooms and hall, the writing room, the office of the commission, the ladies' lounge, and a number of old beds, chests and chairs were also found for the second floor.

The renting and purchase of furniture for the Virginia Building, in order to give the distinctly colonial touch, will greatly exceed \$10,000.

Pleased With Building.

On behalf of the people of the Old Dominion Governor Claude A. Swanson formally accepted the Virginia State Building at the Exposition grounds April 13th, in the presence of several officials of the Tercentennial and Mrs. Swanson. Prior to taking office the Governor, Contractor John Monk by the Governor, a thorough inspection of the structure, as well as the furnishings already installed, was made, and in each instance the decision of the Governor was favorable.

The Governor and his wife went into every room, and every exhibit which has been installed was carefully examined. Governor Swanson stated that he was perfectly satisfied with every feature of the building and the exhibits so far installed, and accepted it on behalf of the people of the State.

The formal opening of the Virginia Building will be made at a reception on the evening of Thursday, April 25th, in honor of the visiting Governors and other distinguished guests, while on the opening day Governor Swanson will entertain the President at dinner.

The Governor has issued an order calling out the military in every arm of the State service to rendezvous at the Exposition on "Virginia Day," June 12th. Representatives of all schools and colleges are desired to be present at this occasion.

Governor Swanson will make an address and Thomas Nelson will read a poem of his own composition. In a proclamation issued early in the year the Governor made it his duty to do, in exercise of the power and authority invested in me as Governor, summon all Virginians and their descendants now residing outside of this Commonwealth, aggregating more than four millions, to appear within their State some time during the Jamestown Exposition.

To Get More Strength from Your Food.

WHEN the Bowels are filled with undigested food, we may be a great deal worse off than if we were half starved.

Because food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and intestines then draw Poison from the decayed Food, instead of the nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That Cause of Constipation is Weak, or Lazy Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them, not "Purgatives" to paralyze them.

There's only one kind of Artificial Exercise for the Bowel-Muscles, and its name is "CASCARETS," and its price is Ten Cents a box.

So, if you want the same natural action that a six mile walk in the country would give you, (without the weariness) take one Cascaret at a time, with intervals between, till you reach the exact condition you desire.

One Cascaret at a time, will properly cleanse a foul Breath, or Coated Tongue.

Don't fail to carry the Vest Pocket Cascaret Box with you constantly.

All Druggists sell them—over ten million boxes a year.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "COCOA" with a picture of a man.

"gain the timely Inn," Hotel Belmont

NEW YORK

deserves this title

"Timely" it is—at the very docks of the Grand Central Station—with surface and elevated lines right at hand and a private passage to subway station for both express and local trains.

And "timely" it is—in that it furnishes the wealth of conveniences—the completeness of service—the satisfying environment which modern hotelcraft aims to attain.

Cost of Hotel Belmont, \$18,000,000. Four years in building. Highest type of modern construction. Elevators, 12. More than a thousand rooms. Foundation of hotel on solid rock.

The latest addition to the great hotels of the world. Opened May 8th, 1906.

RATES: Rooms without bath, \$2.50 and upward. Rooms with bath, \$3.50 and upward. Bath, linen and bath, \$10 and upward. We make you here and try to make you look upon the hotel as your New York home.

The Hotel Belmont, 42nd Street and Park Avenue, New York City. B. L. M. BATES, Managing Director.

STATISTICS: Nearly ten thousand tons of steel used. System of ventilation by filtered air. Automatic best regulators. All rooms equipped with private and long distance telephones.

Opened May 8th, 1906.

RATES: Rooms without bath, \$2.50 and upward. Rooms with bath, \$3.50 and upward. Bath, linen and bath, \$10 and upward. We make you here and try to make you look upon the hotel as your New York home.

The Hotel Belmont, 42nd Street and Park Avenue, New York City. B. L. M. BATES, Managing Director.

VISIT OF ALIENIST ONLY THAT OF FRIEND

Visit of Dr. Jelliffe Gives Rise to False Rumor That Thaw Had Broken Down.

NORFOLK, April 20.—Dr. Smith Ely Jelliffe, one of the alienists who testified for Harry K. Thaw in his recent trial, called on Thaw in the Tombs to-day, and as a result there were immediate rumors that Thaw had broken down.

This point was positively denied by Daniel O'Reilly, now acting as the prisoner's chief counsel. Thaw, he said, was in the best of condition both physically and mentally, and there had been absolutely no change in his condition since the case was ended.

Thaw and Dr. Jelliffe, Mr. O'Reilly explained, had become very close friends, and the doctor's visit was a personal rather than a professional one.

Mr. O'Reilly also took occasion to-day to deny the rumors that Mrs. William Thaw was in financial straits and might not be able to raise bail for her son, even if the court admits him to bail. Mrs. Thaw was ready, he said, to put up with any amount of bail, and he did not expect would be made until the middle of next week.

RECEPTION WILL BE BRILLIANT

Mrs. Swanson Leaves To-Day to Arrange for Event at Exposition.

Mrs. C. A. Swanson, hostess of the Virginia Building at the Jamestown Exposition, leaves to-day for Norfolk, to make ready for the reception that she and Governor Swanson will give in the building on the evening of April 25th to the Governors of different States and their respective parties.

The Virginia Building is a splendid example of architectural taste, and the interior finish and furnishings are all in admirable keeping with its character. Mrs. Swanson has superintended this part of the work, and has expended on it any amount of time, energy and taste.

The hall of the building is one of its most attractive features, being of spacious size and open to the roof. A gallery running around the hall from the landing of the staircases leads into the apartments on the second floor. The walls are hung in Colonial buff silk brocade, pilasters and paneling adding much to the effectiveness of the whole.

The drawing-room is in old blue, the window hangings of set, outlined with panels embroidered in a Colonial tulip pattern.

The dining-room walls are tapestried in green, with a delicate landscape design. The whole lower suite can be thrown into one for an interstate occasion, as on the evening of April 25th, when formal decorations are to be in place, the State flower, Richmond roses, in the dining-room, pink in the drawing-room, and American Beauties in the hall.

The musical program for this occasion will, of course, be altogether patriotic, and largely so. The Virginia Building will be opened to the people of the State on the afternoon of April 27th, when everything will be in readiness to accord them a hearty welcome.

The next public reception at the State building will be given on the evening of May 10th to the Virginia Club of Norfolk. At this time a beautiful vocal and piano program will be rendered that will add greatly to the pleasure of the occasion.

An elaborate menu will be served the evening of April 27th, with many quaint and curious touches to carry out the contemporary idea in salad, eggs and food.

It has been intimated that the governor of the Virginia women and their guests on this occasion will be approximately 10,000.

We Want You

We want you to realize that the way to grow rich is to save money, and make that money work for you.

Now to start? Bring one dollar to this bank and we will open an account with you. You'll have a penny every single penny that is not required for living purposes—determined that you will deposit a certain amount each week. In a short time the account will have grown wonderfully. Besides being absolutely safe, every dollar will earn three per cent compound interest.

Money in pocket goes; Money in bank grows.

Planters National Bank, Savings Department, RICHMOND, VIRGINIA.

Capital, \$300,000.00. Surplus and Profits, \$1,000,000.00.
